

Natural Classes

from Morris Halle and G. N. Clements (1983) *Problem Book in Phonology: A Workbook for Introductory Courses in Linguistics and in Modern Phonology*. MIT Press.

The following charts show the phoneme inventory of some language.

Each circle or box in the charts encloses a natural class. Describe each of these natural classes in terms of features. Use the *minimum* specification necessary for defining each class in this language.

a.

b.
